RIDEAU				210
W. CARLETON				240
RMOC TOTAL				29480

NOTICE

The Planning Department has been producing the Data Handbook in its current form since 1979 and it has been a frequently requested publication. Some modifications have been made in this issue such as the addition of population and dwelling unit data by census tract for Ottawa-Hull, as well as relevant mapping. Also we have included a list of definitions of terminology associated with the data in this report.

We are, however, interested in input from you, the user,on whether the data included in this report meets your needs. We are willing to add other data to this publication if it is available and can be produced in this report format. Please forward your comments to the undersigned.

Also note that the Planning Department will have these tables available in diskette form (LOTUS 1-2-3 files) early in 1988

DEFINITIONS - DATA HANDBOOK

CENSUS DEFINITIONS

CENSUS FAMILY

Refers to a husband and a wife (with or without children who have never married, regardless of age), or a lone parent of any marital status, with one or more children who have never married, regardless of age, living in the same dwelling. For census purposes, persons living in a common-law type of arrangement are considered as now married, regardless of their legal marital status; they accordingly appear as a husband-wife family in most census family tables.

DWELLING, OCCUPIED PRIVATE

Refers to a private dwelling in which a person or group of persons is permanently residing. Also included are private dwellings whose usual residents are temporarily absent on Census Day. Unless otherwise specified, all data in housing reports are for occupied private dwellings rather than unoccupied private dwellings or dwellings occupied solely by foreign and/or temporary residents.

Owned; Rented.
A dwelling is classified as "owned" even if it is not fully paid for, such as one which has a mortgage or some other claim on it. The dwelling may be situated on rented or leased land or be part of a condominium (whether registered or unregistered).

A dwelling is classified as "rented" even if it is provided without cash rent or at a reduced rent or if the dwelling is part of a co-operative. For census purposes, in a co-operative all members jointly own the co-operative and occupy their dwelling units under a lease agreement.

HOUSEHOLD, PRIVATE

Refers to a person or group of persons (other than foreign residents) who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada. The number of private households equals the number of occupied private dwellings.

DWELLING, PRIVATE

Refers to a separate set of living quarters with a private entrance either from outside or from a common hall, lobby, vestibule or stairway inside the building. The entrance to the dwelling must be one which can be used without passing through the living quarters of someone else.

Single-detached House - A single dwelling not attached to any other dwelling or structure (except its own garage or shed). A single-detached house has open space on all sides, and has no dwellings either above or below it.

Semi-detached House - One of two dwellings attached side by side (or back to front) to each other, but not to any other dwelling or structure (except its own garage or shed). A semi-detached dwelling has no dwellings either above it or below it and the two units together have open space on all sides.

Row House - One of three or more dwellings joined side by side (or occasionally side to back), but not having any other dwellings either above or below.

Other Single Attached House - A single dwelling attached to another building, or occasionally to another dwelling, that does not fall into orthodox categories.

Apartment or Flat in a Detached Duplex - One of two dwellings, located one above the other, but not attached to any other dwelling or structure (except its own garage or shed). The two units together have no other dwellings attached to the back, front, or sides, and have open space on all sides.

Apartment in a Building that has Five or More Storeys - A dwelling unit in a high-rise building which has five or more storeys.

Apartment in a Building that has Less than Five Storeys - A dwelling unit attached to other dwelling units, commercial units, or other non-residential space in a building that has less than five storeys.

Mobile Home - A single dwelling, designed and constructed to be transported on its own chassis, and capable of being moved on short notice.

MOTHER TONGUE

Refers to the first language learned in childhood and still understood by the individual at the time of the census.

ASSESSMENT DEFINITIONS

CATEGORY

(1) Detached - a building designed to contain only one dwelling unit, having its OWN PRIVATE OPEN SPACE and its OWN ENTRANCE.

(2) Individually Attached - a building designed to contain two or more attached dwelling units, one or two units high. Each unit generally has its OWN OPEN SPACE and its OWN INDIVIDUAL ENTRANCE.

(3) Plex - a building which is two or three units high, in which six or less units SHARE A COMMON ENTRANCE. Generally, each individual unit does NOT have its OWN DEFINED PRIVATE OPEN SPACE (other than a balcony).

(4) Apartments - a building two or more dwelling units high containing more than six dwelling units which SHARE A COMMON ENTRANCE. Each individual dwelling unit does NOT have its OWN PRIVATE OPEN SPACE (other than a balcony).

(5) Others - this category includes mixed-use buildings (residential ancillary), seasonal dwelling units, residential trailers, etc.

MISCELLANEOUS DEFINITIONS

Gross Leasable Area - total floor area designed for tenant occupancy/exclusive use including basements, mezzanines and upper floors expressed in square feet/metres and measured from the centreline of joint partitions/outside wall faces. The gross leasable area figure excludes from its calculation those areas occupied by corridors, walkways, utility areas and most non-retail space (i.e. theatres and offices).*

*Adapted from Larry Smith and Associates Ltd., Retail Facilities in the RMOC (Toronto: Larry Smith and Associates Ltd., (1985)).

National Topographic System (NTS) - Canada a National Series of Topographic Mapping Based on a Universal Transverse Mercator Projection at the Scales 1:25,000 , 1:50,000 , 1:125,000 and 1:250,000.

Greenbelt - As defined in the Draft Regional Official Plan Schedule "B", May 1987.

RMOC - Regional Municipality of Ottawa-Carleton.

CRO - Communauté Régionale de l'Outaouais.

Note: Statistics Canada totals do not necessarily add, due to random rounding by Statistics Canada.
